WINTER
SUMMER

Which would you choose: The Northern Lights or the Midnight Sun?

Due to the overwhelming popularity of our winter Follow the Lights escorted small group tour, we've **DOUBLED** the departures for 2018/19! This 15-day unique tour is designed to give you the best opportunity to see the Northern Lights, and includes highlights such as a night in a unique glass igloo, husky dog sled rides, a stunning 6-night Hurtigruten voyage along the Norwegian coast and fjords, a day trip to Tallinn, Estonia and so much more.

Our **NEW** small group escorted tour for 2018 is summer program Follow the Midnight Sun. The Midnight Sun is the phenomenon that occurs in and around the Arctic Circle where the sun is still visible at midnight because of the tilt of the earth (this means a quarter of Finland has 60 days of sun without setting). This unique 12-day tour also includes a Hurtigruten voyage and showcases the very best Scandinavia has to offer in the luminous summer months. A very special moment of the tour is the trip out to the North Cape. Being so close to the Geographical North Pole, this provides an unforgettable view of the midnight sun, and you will get a certificate to mark the occasion!

So which would you choose: The Northern Lights or the Midnight Sun?
